

USING POWER BI TO ACCESS CEMLINK6

DATE: Wednesday, May 19th, 2021

TIME: 1:00pm – 3:00pm ET

LEVEL: Advanced

PRICE: \$199.00

DESCRIPTION: CEMLink6 does an amazing job with managing, reporting, and allowing you to visualize your compliance data. But what about users looking for more innovative business intelligence capabilities (beyond what is available in the product) or those looking to share and collaborate at a corporate level?

This session will introduce you to Power BI – Microsoft’s premier business intelligence tool which is sweeping the industry by storm. Here, we will set the stage and demonstrate how to begin using Power BI effectively within your organization in order to bring your compliance data to life.

PREREQUISITES:

- Fundamental understanding and knowledge of databases
- Knowledge of basic programming concepts
- Familiarity with Microsoft Office apps

KEY TOPICS INCLUDED:

- Download and Installation of Power BI Desktop
- Connecting Power BI to the CEMLink 6 Database
- Querying Data from CEMLink 6
- Introduction to Data Preparation and Manipulation
- Basic Report Building
- Introduction to Visuals, including Slicers, Tables, Charts
- Introduction to Filters, including Drilldown and Slicers
- Themes
- Mobile Views
- Sharing and Collaboration with Power BI Service

We will create 3 different “real-world” example reports to help you become more acquainted with features of both the Power BI Desktop application as well as the Power BI Service:

1. QA Test Deadline Report
2. Compliance Events Report
3. Fleet-Wide Emissions Dashboard Report

**Participants will receive copies of all files (example reports and instructions) used for the training.*

**Space is limited,
