BILL MITCHELL

INSTRUCTOR

Bill Mitchell, Sr. Environmental Engineer, has over 30 years of experience in CEMS and emissions data management. Since joining VIM in 2008, he has been the lead of our COMPAS consulting group and has developed many tools to streamline process of making sense of the large amount of data generated by a CEMS. Bill is also our lead on all PA DEP regulations. Prior to VIM, Bill worked as an environmental professional in the power generation industry, both in corporate and power plant roles.

List of Relevant Training Experience:

Bill has taught numerous training classes over the years – on topics ranging from general Part 60 and Part 75 regulations to more focused industry-specific MACT regulations.

Bill has developed and taught many training classes that were custom-tailored to specific facilities and needs.

Bill has also presented at the *Electric Power Research institute's – CEMS Users Group*.
