

Introduction to Part 75

3-Day Online Training Course

INTRODUCTION TO PART 75 ONLINE TRAINING

DESCRIPTION: The course is designed to provide a thorough review of the Part 75 monitoring, recordkeeping and reporting requirements. The course would be beneficial to environmental managers as well as Instrument & Control Technicians with CEMS responsibilities. The training would be valuable to personnel with limited Part 75 experience as well as a refresher for more seasoned personnel. The second day is split into two sessions to provide attendees with the flexibility to select the session that is more applicable to their plant site. However, attendees are welcome to attend both sessions on Day 2.
